PROFILE

A motivated and passionate student currently pursuing Intermediate education and training in Web and Mobile App Development at Saylani Mass IT Training Program. Skilled in frontend technologies including HTML, CSS, Tailwind, JavaScript and React. Eager to expand knowledge into Artificial Intelligence after development, with the long-term goal of becoming a Software Engineer.

PROJECTS

MERN E Commerce Store

<https://vibewearstore.vercel.app/>

- Built a MERN stack e commerce platform with secure authentication, product management, shopping cart features, REST APIs, and MongoDB database integration. Designed a responsive UI using React and Tailwind CSS and deployed the application on Vercel and Railway.

Personal Portfolio Website

<https://moizcraft.netlify.app/>

- Designed and developed a personal portfolio website using React and Tailwind CSS.

Live Weather App

<https://liveweathercheck1.netlify.app/>

- Built a responsive Live Weather App with React and Bootstrap, utilizing a free Weather API for real-time temperature and weather updates.

SKILLS

Language: HTML, CSS, JavaScript

Framework: React, Bootstrap, Tailwind CSS

Tools: Git, Github

Other: REST API Integration, Responsive Design
